

## ZACTS: Zambia Agricultural and Crafts and Theological Studies

### *Equipping young leaders*

#### **Project Summary:**

Since 1987 I.N. Network has provided a unique combination of vocational and spiritual training to young men and women who would otherwise not have the opportunity to attend school. ZACTS (Zambia Agricultural and Crafts and Theological Studies) offers young people education and vocational skills training in agriculture, crafts skills such as home making and catering, hotel management and carpentry. But more than this, the school provides each student with theological and discipleship training, helping them reach out to the orphans and widows in their community and show God's love to communities devastated by poverty and disease.

Many students graduating from ZACTS are offered good careers. They use their knowledge of the Bible and spiritual insight to help lead local churches, building a stronger Church in Zambia.

You can choose to for a student or contribute a gift to help expand the school, offering this educational opportunity to even more students.

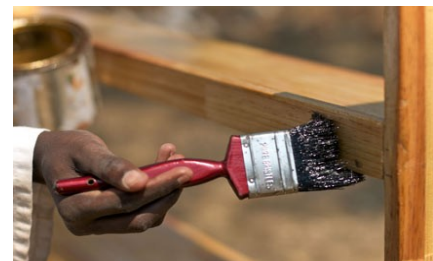

#### **Project Details:**

When a young man or woman completes their primary and secondary education they need to learn an income-generating skill. ZACTS provides training in agriculture, carpentry and hotel management while training young people in the Scriptures. Each young person is mentored to become a strong influence in their community, helping to lead the next generation into a strong commitment to Jesus Christ and a lifestyle of purity and discipline.

You can provide a young person with meaningful alternatives by giving a scholarship to a student in Zambia. Your gift helps a student prepare for their future with hope and purpose, providing them with housing, food relief, school supplies and sound Biblical teaching. After graduation, students will also receive a personal "kit" which will provide them with essential trade tools needed to make a living – a hammer, chisel set and saw for carpentry, an apron, set of knives and mixing bowls for catering students and a shovel, hoe, rake and

#### **About International Needs:**

For over 30 years, International Needs has been working to free children, their families and communities from the damage and cruelty of civil strife, poverty and disease. Inspired by the life of Jesus and motivated by our faith in God, our ultimate goal is to tell the story of Jesus Christ in word and deed.

watering can for agricultural students.

As more and more partners come alongside our educational programs in Zambia, we hope to one day expand our library services, offer computer literacy training, provide a new carpentry workshop and improve the transportation options for students travelling far distances.
